

TAR Select

1x4 Architectural LED Troffer Retrofit Kit

Product Description

The TAR Architectural LED Troffer Retrofit provides an economical, easy-to-install upgrade from linear fluorescent lighting to a long-lasting and energy-efficient LED solution. The contemporary center lens design delivers a soft natural glow with even illumination and minimized glare, making it an attractive general-purpose ambient lighting solution. The TAR also features a pre-mounted driver with a high-efficiency, maintenance-free LED chamber. Whether in a school, hospital, airport, office or convenience store, NICOR LED troffers bring a stylish and economical lighting solution to all commercial, educational, medical, and retail applications. The CCT Selectable design allows for easy adjustment to 3500K, 4000K, or 5000K.

Construction

- Durable steel construction with powder coat finish
- High efficiency, maintenance-free LED chamber
- Smooth formed sides for safe handling

Optical System

- Precision engineered PMMA diffuser
- No visible diodes, hot-spots, or shadows providing high uniformity, and reduced glare

Electrical

- Long-life LED system coupled with electrical driver to deliver optimal performance with 125+ lumens per watt depending on CCT
- Driver delivers full-range dimming from 0 - 10VDC
- Operating temperature rating of -4°F to 104°F (-20°C to 40°C)
- Input voltage of 120-277VAC

Mounting and installation

- Unique four rail system minimizes gaps, creating a more seamless look
- Quick and easy single person installation
- Features an integral driver for easy installation
- Seismic wire provided for safe installation and operation
- Suitable for use in IC rated troffer

Finish

- Matte white powder coat finish

Warranty

- 5-year limited system warranty standard
- Warranty does not cover product failure due to an overvoltage event (power surge.)
- TM-21 Projected L70(9k) life >50,000 hours
- LM-79, LM-80 testing performed in accordance with IESNA standards.
